Access: Tel: 705.523.4988
Average wait time: 1-2 weeks

In January 2018, OAGS started running a **Concurrent Disorders Group** designed for clients who are struggling with depression and/or anxiety as well as a substance use problem. This treatment group uses Cognitive Behaviour Therapy (CBT) skills to help clients reduce and prevent symptoms of depression and anxiety while also helping clients change their substance use.

Benefiting from sustainable funding provided through the province's Opioid Strategy, HSN will also be supporting the regional rollout of RAAM clinics across the NE LHIN by coaching and mentoring clinicians in other communities.

Did you know?

To date the RAAM clinic has served over 170 individuals.

The RAAM clinic will be increasing to 5 days per week in April.

MONARCH Men's Recovery Home houses 18 men for up to 6 months.

The SIGNIFICANT OTHER GROUP (OAGS) is a closed treatment group for adults 18 and older who are affected by a loved one with a substance use and/or gambling problem.
