Parent of a school-aged child scenario

You are the parent of a school-aged child. Which of the following ways does Public Health support you and your child:

- a. Your child attends a school-based immunization clinic.
- b. Your child receives oral health education, screening, and preventive dental health services.
- c. The school supports the building blocks of healthy development.
- d. The school provides safe, nutritious food options.
- e. You can access Triple P information about parenting topics.
- f. All of the above.

The answer to this question is **all of the above**.

Public Health Sudbury & Districts enforces laws that ensure safe food and water, develops campaigns on safe sex, alcohol use, healthy eating, and physical activity. We identify, warn of, and work to minimize environmental health hazards, provide or promote a variety disease screening programs, and advocate to improve the social and economic determinants of health such as education, social inclusion, and freedom from violence, discrimination, and poverty. We do this and so much more!

Community members, partnering organizations, elected officials, and other members of the health system play an important role in the work of Public Health. They participate in local programs and services, work together on ongoing activities, champion initiatives that promote and protect the health of our communities, and provide governance to Public Health Sudbury & Districts. All of these efforts support us in meeting our vision of a healthier community for all.

Public Health Sudbury & Districts is committed to improving health and reducing social inequities in the communities we serve. Learn more about public health in your community and about how it acts as a helpful resource to create change by visiting www.phsd.ca.
