Public Health file number: _____ Date received: _____ Receipt #: _____

This form is to be accompanied by a \$300.00 fee payable to Public Health Sudbury & Districts.

The Ontario Building Code has a minimum setback distances from structures to parts of a private sewage system. Structures include such things as garages, swimming pools, decks, and sheds.

In order to determine if your proposed structure meets required setback distances, Public Health Sudbury & Districts must make a site visit to the property to verify if distances have been met.

Unless the location of the sewage system is obvious, it may be necessary to expose some part of the sewage system in order to measure distance.
