To: Owners/Operators of Facilities Located in Public Health Sudbury & Districts Jurisdiction Where Organized Sports are Played and/or Practiced Indoors

Re: Public Health Instructions for Owners/Operators

I am writing to notify owners and operators for the above Facilities of your responsibilities.

I also wish to thank you for your ongoing support throughout the COVID-19 pandemic to help protect the health of area residents. It is through our collective efforts that we will keep our communities safe. The fourth wave of the COVID-19 pandemic is upon us, with the highly transmissible Delta variant being the dominant variant in COVID-19 cases. The Ontario's Science Advisory and Modelling Consensus Tables advise that the Delta Variant is twice as transmissible than the original SARS-CoV-2 virus. Daily COVID-19 case counts in Ontario are substantial, with provincial data showing over 4,357 new cases reported to public health during the period of September 19 to September 25, 2021, with a rate of 29.6 per 100,000 population. In the Public Health Sudbury & Districts service area, there were 36 new cases reported during the period of September 21 to September 27, 2021, with a rate of 18.1 cases per 100 000 population. Twenty three out of 36 cases (63.9%) screened positive for variants of concern. Seventeen of the new cases (47.2%) were among those under the age of 19.

Activities related to organized sports have the potential to enhance COVID-19 transmission. Specifically, close contact, forceful exhalation, prolonged exposure, crowded indoor spaces and masks and face coverings removed during physical activity contribute to enhanced likelihood of COVID-19 transmission. These risks for enhanced transmission are combined with the risk of increased spread within and between communities given the composition of organized sports teams and their associated travel. Verifying proof of vaccination for persons 12 years and older in the Facilities noted above, in accordance with this Letter of Instruction, will strengthen protections for communities with the Public Health Sudbury & Districts service area by helping curb the spread of COVID-19.
