

ELEVATOR MODERNIZATION

REQUEST FOR PROPOSAL

ADDENDUM 1

1300 Paris St

Sudbury, Ontario

December 10, 2021

ADDENDUM 1

1. For clarity - reference page 11, clause 13 – add the word “operator” after “linear style heavy duty door”.
2. Added scope – reference page 11, clause 13 – add new item g):

“g) Provide new stainless steel, #4 finish, skins and door frames at each hall entrance.”
3. Added Scope – reference page 12, clause 18 – add new item b):

“b) Make provision for future emergency power operation (EPO) of the elevator. Include control circuitry to readily permit activation of EPO on site without requiring a software change (dip switches or on board parameter changes). Provide an EPO indicator light in the main floor hall station which will be covered pending the provision of the emergency generator power supply.”
4. For clarity – reference page 14, clause 8 maintenance – in the third line delete “of both cars”.
