Getting ready for your child(ren)'s vaccination appointment?

When joining your child(ren) at their vaccine appointment don't forget to bring:
A medical mask that covers the nose, mouth, and chin. *
Your child's health card. If they do not have a health card or it is expired, bring another form of government-issued identification such as a passport, Status card, or birth certificate.
A list of your child's allergies and medications.
Your child's immunization record.
A toy, favourite item, or screen device for comfort and distraction.

* If you do not have a medical mask, pediatric and adult medical masks will be available at the entrance to the clinic.

Please ensure your child(ren) have had something to eat or drink before their appointment and that they wear a top that allows for easy access to the upper arm such as a loose-fitting top or a t-shirt.
