

# Third dose of COVID-19 vaccine recommended for immunocompromised individuals

If you have certain immunocompromising conditions, you need a third dose of the COVID-19 vaccine **8 weeks (56 days)** after your second dose to be fully vaccinated. A fourth (booster) dose is also recommended **3 months (84 days) after your third dose**.

Without it, you are at higher risk of contracting COVID-19 and its variants.

Talk to your health care provider to see if you are eligible.

To learn more and to book your appointment:

- Visit [covid-19.ontario.ca/book-vaccine](https://covid-19.ontario.ca/book-vaccine)
- Call 705.674.2299 (toll-free: 1.800.708.2505), Monday to Friday between 8 a.m. and 6 p.m.
- Visit [covid-19.ontario.ca/vaccine-locations](https://covid-19.ontario.ca/vaccine-locations) for pharmacy locations and booking information.
- Talk to your primary care provider about vaccination against COVID-19 and booking an appointment
